| 53 – 75   |                                |             |          |
| <hr/>   |                                |             |          |
| <b>4. Rational Numbers</b> <ul style="list-style-type: none"> <li>• Rational Numbers 53</li> <li>• General Rules 53</li> <li>• Equivalent Rational Numbers 54</li> <li>• Comparison of Rational Numbers 57</li> <li>• Operations on Rational Numbers 59</li> <li>• Representation of Rational Numbers on Number Line 68</li> <li>• Rational Numbers as Decimals 70</li> </ul> |                                |             |          |
| ... ... ...   |                                |             |          |
| 76 – 85   |                                |             |          |
| <hr/>   |                                |             |          |
| <b>5. Exponents</b> <ul style="list-style-type: none"> <li>• Power of a Number 76</li> <li>• Laws of Exponents 77</li> </ul>  |                                |             |          |
| ... ... ...   |                                |             |          |
| 86 – 102  |                                |             |          |
| <hr/>   |                                |             |          |
| <b>6. Sets</b> <ul style="list-style-type: none"> <li>• A Set and Its Objects 86</li> <li>• How to Describe a Set? 87</li> <li>• Types of Sets 88</li> <li>• Subsets 92</li> <li>• Operations on Sets 94</li> <li>• Cardinal Properties of Sets 96</li> </ul>   |                                |             |          |

## THEME 2 : RATIO AND PROPORTION

|  |             |           |
|--|-------------|-----------|
| <b>7. Ratio and Proportion</b>                               | ... ... ... | 103 – 113 |
| • Ratio 103 • Proportion 108                                 |             |           |
| <b>8. Unitary Method</b>                                     | ... ... ... | 114 – 120 |
| • Unitary Method 114 • Direct Proportion or Direct Variation | 114         |           |
| • Indirect Proportion or Indirect Variation 116              |             |           |
| <b>9. Percentage</b>   | ... ... ... | 121 – 131 |
| • Percentage 121 • Problems Related to Percentage 124        |             |           |
| • Percentage Change 127                                      |             |           |
| <b>10. Profit and Loss</b>                                   | ... ... ... | 132 – 139 |
| • Cost Price 132 • Selling Price 132                         |             |           |
| • Profit or Gain 132 • Loss 132                              |             |           |
| <b>11. Simple Interest</b>                                   | ... ... ... | 140 – 145 |
| • Introduction 140 • Formula for Calculating Simple Interest | 140         |           |

**12. Speed, Distance and Time**

- Speed, Distance and Time 146
- Converting Speed into other Units 147
- Uniform and Variable Speed of a Moving Body 147
- Problems on Trains 148

**THEME 3 : ALGEBRA****13. Algebraic Expressions** ... ... ... 152 – 162

- Fundamental Concepts of Algebra 152
- Operations on Numbers and Literals 152
- Various Types of Algebraic Expressions 153
- Operations on Algebraic Expressions 156

**14. Linear Equations** ... ... ... 163 – 175

- Mathematical Sentences 163 • Linear Equation 163
- Rules for Solving Linear Equation 164 • Transposition 164
- Problems based on Linear Equations 168

**15. Inequalities** ... ... ... 176 – 182

- Inequations 176 • Properties of Inequalities 176

**THEME 4 : GEOMETRY****16. Fundamental Geometrical Concepts** ... ... ... 183 – 187

- Point 183 • Line Segment 183 • Ray 183
- Line 183 • Plane 184 • Collinear Points 184
- Intersecting Lines 184 • Concurrent Lines 184
- Parallel Lines 184 • Some Important Results 184

**17. Lines and Angles** ... ... ... 188 – 206

- Angle 188 • Types of Angles 188
- Complementary Angles 189 • Supplementary Angles 189
- Adjacent Angles 191 • Linear Pair of Angles 191
- Angles on a Line 192 • Angles at a Point 192
- Vertically Opposite Angles 192
- Perpendicular Lines 195 • Parallel Lines 196

**18. Properties of Triangles** ... ... ... 207 – 225

- Triangle 207
- Classification of Triangles According to Sides/Angles 208
- Angle Sum Property of a Triangle 209
- Exterior Angle Property of a Triangle 209
- Pythagoras Theorem 218

**19. Symmetry** ... ... ... 226 – 237

- Reflection Symmetry or Linear Symmetry 226
- Point Symmetry 229 • Rotational Symmetry 230

**20. Representing 3-D in 2-D** ... ... ... 238 – 245

- Cuboid 238 • Cube 238 • Cylinder 239 • Cone 239
- Net of a Three-Dimensional Figure 239 • Mapping the Space 242

|            |  |             |                  |
|------------|--|-------------|------------------|
| <b>21.</b> | <b>Congruence</b>                              | ... ... ... | <b>246 – 256</b> |
|            | • Congruent Triangles 247                      |             |                  |
|            | • Conditions for Congruency of Triangles 247   |             |                  |
| <b>22.</b> | <b>Construction</b>                            | ... ... ... | <b>257 – 263</b> |
|            | • Basic Constructions 257                      |             |                  |
|            | • Constructions Using Ruler and Set Square 258 |             |                  |
|            | • Construction of Triangles 260                |             |                  |

### **THEME 5 : MENSURATION**

|            |   |             |                  |
|------------|---|-------------|------------------|
| <b>23.</b> | <b>Mensuration</b>                                  | ... ... ... | <b>264 – 292</b> |
|            | • Perimeter 264 • Area 267                          |             |                  |
|            | • Using Unit Square Grid Sheet to Find Area 268     |             |                  |
|            | • Area of Paths, Roads and Borders 276              |             |                  |
|            | • Area of Triangles 279 • Area of Parallelogram 283 |             |                  |
|            | • Area of a Rhombus 283 • Area of a Circle 287      |             |                  |

### **THEME 6 : DATA HANDLING**

|            |   |             |                  |
|------------|---|-------------|------------------|
| <b>24.</b> | <b>Data Handling</b>  | ... ... ... | <b>293 – 311</b> |
|            | • Introduction 293 • Frequency Distribution 294             |             |                  |
|            | • Mean of Tabulated Data 295 • Median of Ungrouped Data 297 |             |                  |
|            | • Mode of Ungrouped Data 301                                |             |                  |
|            | • Empirical Formula for Calculating Mode 301                |             |                  |
|            | • Graphical Representation of Statistical Data 303          |             |                  |
| <b>25.</b> | <b>Probability</b>  | ... ... ... | <b>312 – 315</b> |
|            | • Introduction 312 • Probability 312                        |             |                  |
|            | <b>Answers</b>  | ... ... ... | <b>316 – 336</b> |
